Michael Scott

Centimillionaire member with a
\$104M exit in 3.5 years

"I had never raised a dollar of private investment capital until I joined the Family Office Club. The organization taught me how to combine entrepreneurship with private investment capital, and that made my net worth and ability to create value skyrocket. Thanks to Richard and his team, I also learned how to vet deals. I have immense loyalty to them. For anyone thinking about signing up, just do it. I come from a poor background without a college degree, and I simply learned from those achieving the results I wanted, then reverse-engineered their success."

Larry Connor

Billionaire Investor & Fireside
Chat Keynote Speaker

"I just got finished speaking at the Family Office Club. I think Richard did an outstanding job asking me questions about our experiences, philosophies, and beliefs around investing. It seemed like you had a really good, diverse group of people from across the country genuinely interested in doing smart investing."

Jeff Hoffman

Billionaire Creator of
Priceline.com/Booking.com and uBid.com

"I am a huge fan of the Family Office Club, which is an incredible community almost like a family of people across the investment landscape from all over the world who have similar interests and gather together to learn and share. That's what I love about being here, in addition to the speakers they have, the networking and the opportunity to meet people and exchange information and trade knowledge is just incredible, unparalleled. So highly recommend the Family Office Club."

Kevin Harrington

Centimillionaire Shark from Shark Tank, Creator
of As Seen on TV & Early Celsius Investor

"It's awesome. There are hundreds of investors, family office club members, and individual investors. I just want to tell you, if you're in the business of investing, you need to be at the Family Office Club because this is where all the action is."

Larry Namer

Founder of E! Entertainment
Sold for \$2 Billion+

"To see the people that come to this event and the scope of it, all the different things that people are involved in, and how much information you walk away with from being here. So, whenever Richard calls, I'll be back."

Tony Robbins

Billionaire Owner of 100+ Companies

"When our founder interviewed Tony Robbins for Billionaires.com he emphasized that proximity is power, saying 'I made \$400M from one transaction due to the power of proximity and being in the right rooms.'"

Ed Connors

Founder of Gold's Gym

"I'm blown away by the attendees and what I've seen and heard. I'm nearly 80 years old, I've never seen anything quite this good."
